About Aligos Therapeutics

Aligos Therapeutics, Inc. is a privately held biotechnology company that was founded in 2018 with the mission to become a world leader in the treatment of liver diseases. Aligos is focused on the development of targeted, antiviral therapies including chronic hepatitis B (CHB) and COVID-19 as well as leveraging expertise in liver diseases to create targeted therapeutics for NASH, which collectively affect hundreds of millions of people around the world. Aligos' strategy is to harness the deep expertise and decades of drug development experience its workforce has in liver disease, particularly viral hepatitis, to rapidly advance its pipeline of best-in-class molecules.
